Pool Pumps

General Purpose Self Priming Pumps

AG Series, the new generation of pool pumps, have been specifically designed for above ground and small to medium sized residential swimming pools. Easy installation and whisper quiet running are their keynotes.

The AG series offers a range of four pumps in one modern compact body with 63 frame motor.

The motor is supplied prewired with 2 metres of cable and optional on/off switch. The pump has two 2 1/4" BSP external threaded ports.

Enhanced inspection capability is provided by magnifying effect of the clear domed strainer lid, with a new easily removable design and a separate lid removal tool.

The pump includes an integral mounting foot, fine mesh 1.8ltr strainer basket, high grade Carbon Graphite/ceramic seal assembly and 63 frame IPx5 motor.

The AG series Argonaut is designed using the latest technological advances and our manufacturing processes use the latest equipment to produce and test the final pump, which guarantees the quality and reliability.

The AG series is approved for safety by TUV and has the European Keymark approved and is CE marked by ITT Industries.

Self-priming up to 1.8 m

PP tank, resistant to chemicals and sea water

Stainless AISI 316 steel shaft

IPx5 cast aluminium motor

Whisper running

Small building sizes

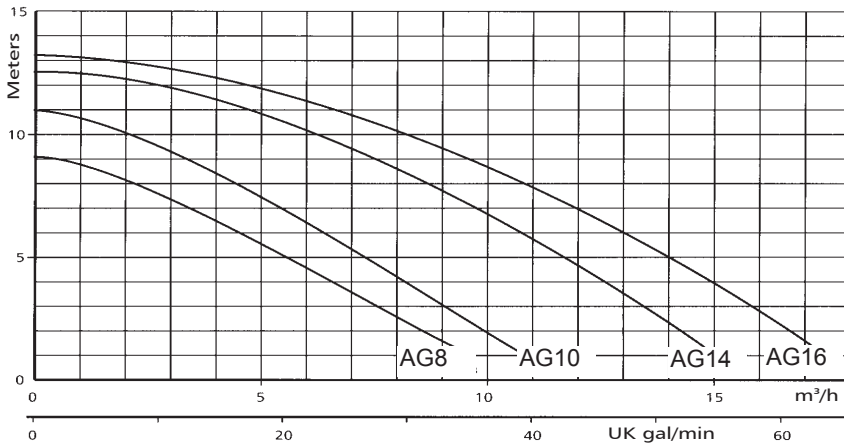

TÜV approved

2 1/4" BSP external threaded ports

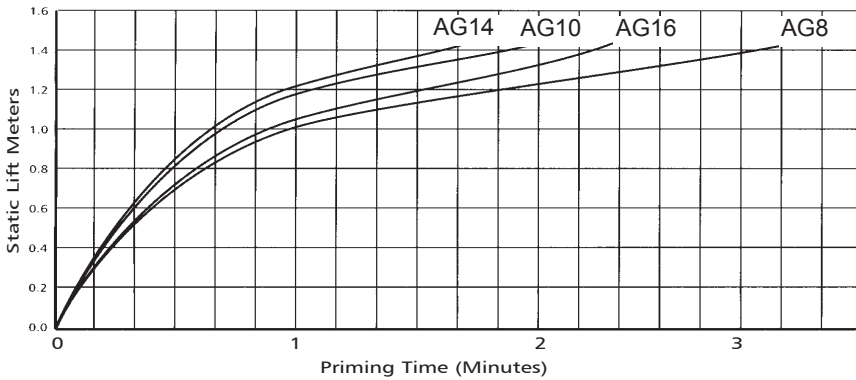

Unions for both metric and imperial use
